

This is a message from the State Water Resources Control Board.

To Wastewater Treatment Plant Operators,

Wastewater Operator Advisory Committee has a New Position

Per passage of Assembly Bill 2890 which amends Section 13632 of the Water Code, the State Water Resources Control Board (State Water Board) is requesting nominations for one additional committee member, a water recycling operator to represent water recycling treatment plants. The nominee must be employed as an operator at water recycling treatment plant and be certified as a Water Treatment or a Wastewater Operator. The new Advisory Member's appointment will start as of January 1, 2017 for a four (4) year term.

Documentation required

Upon appointment to the Committee appointees will receive and be required to adhere to the Bagley-Keene Act and sign a confidentiality agreement. In order for the nominee to be considered for Committee Membership they must submit the following documentation:

- Original nomination letter from the individual, nominating agency or organization specifying the category of nomination.
- Resume or information detailing recycled water experience from nominee and acceptance of nomination from nominee that includes reason for nomination, address, phone number, name of employer.

Nominations must be submitted by: February 1, 2017.

Please submit to:
